

Information For the User  
Atorvastatin 10mg + Aspirin 75mg + Clopidogrel 75mg Capsule

# Atorable Gold Capsule

**Brand Name:** Atorable Gold Capsule

**Dosage Form:** Capsule

**Composition:**

Each capsule contains:

- Atorvastatin Calcium IP equivalent to Atorvastatin 10 mg
- Aspirin IP 75 mg
- Clopidogrel Bisulfate IP equivalent to Clopidogrel 75 mg

**Description:**

Atorable Gold Capsule is a combination therapy indicated for the management of cardiovascular risk factors. It helps in lowering cholesterol levels, preventing platelet aggregation, and reducing the risk of thrombotic cardiovascular events such as heart attack and stroke.

**Indications:**

Indicated for:

- Primary and secondary prevention of cardiovascular events in patients with atherosclerotic cardiovascular disease
- Hypercholesterolemia and mixed dyslipidemia
- Patients at high risk of myocardial infarction, stroke, or peripheral arterial disease

It helps in controlling lipid levels, preventing clot formation, and reducing the risk of cardiovascular complications.

**Dosage & Administration:**

Dosage should be as prescribed by the physician.

Swallow the capsule whole with water.

Do not crush or chew.

**Pharmacological Action:**

Atorvastatin is an HMG-CoA reductase inhibitor that lowers LDL cholesterol and triglycerides while modestly increasing HDL cholesterol. Aspirin irreversibly inhibits platelet cyclooxygenase, reducing thromboxane A<sub>2</sub> formation and platelet aggregation. Clopidogrel selectively inhibits ADP-mediated platelet activation, preventing thrombus formation. The combination provides synergistic cardiovascular protective effects.

**Side Effects:**

Generally well tolerated.

Occasionally, gastrointestinal discomfort, headache, dizziness, or mild myalgia may occur.

Rarely, bleeding tendencies or liver enzyme elevations may be observed.

**Precautions & Warnings:**

- Use with caution in patients with hepatic impairment or history of gastrointestinal bleeding
- Monitor liver function tests and lipid profile periodically

- Use under medical supervision in patients receiving anticoagulants
- Avoid concurrent use with other antiplatelet or anticoagulant agents unless prescribed

**Drug Interactions:**

Concomitant use with CYP3A4 inhibitors, other antiplatelet agents, anticoagulants, or NSAIDs may increase the risk of adverse effects. Use under strict medical supervision.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
