Chlorpheniramine Maleate (2mg) + Phenylephrine (5mg) Syrup

Coldstuff AF Syrup

Brand Name: Coldstuff AF Syrup

Dosage Form: Syrup

Composition:
Each 5 ml contains:
• Chlorpheniramine Maleate IP 2 mg
• Phenylephrine Hydrochloride IP 5 mg

Description:
Coldstuff AF Syrup is a combination of an antihistamine and a nasal decongestant indicated for the symptomatic management of allergic and upper respiratory tract conditions. It helps in relieving nasal congestion and reducing allergic manifestations associated with common cold and rhinitis.

Indications:
Indicated for the symptomatic treatment of:
• Common cold
• Allergic rhinitis
• Nasal congestion
• Upper respiratory tract allergic conditions

It helps in relieving sneezing, rhinorrhea, nasal blockage, and watery eyes.

Dosage & Administration:
Dosage should be as directed by the physician.
Shake well before use.
Use a calibrated measuring cup or spoon for accurate dosing.

Pharmacological Action:
Chlorpheniramine Maleate is a first-generation antihistamine that blocks H_1 receptors, reducing allergic symptoms. Phenylephrine is a selective α_1-adrenergic agonist that produces vasoconstriction of nasal mucosal blood vessels, thereby relieving nasal congestion.

Side Effects:
Generally well tolerated.
Occasionally, drowsiness, dizziness, dry mouth, or gastrointestinal discomfort may occur.

Precautions & Warnings:
• May cause drowsiness; caution is advised when alertness is required
• Use with caution in patients with hypertension or cardiovascular disorders
• Use under medical supervision in pediatric patients
• Do not exceed the recommended dosage

Drug Interactions:
Concomitant use with monoamine oxidase inhibitors (MAOIs), other sympathomimetic agents, or central nervous system depressants should be avoided.

Storage:
Store below 25°C in a cool, dry place.
Protect from light and moisture.
Keep out of reach of children.
