

Information For the User  
Chlorpheniramine Maleate (1mg) + Paracetamol (125mg) + Phenylephrine (2.5mg) Drop

# Coldstuff P Drop

**Brand Name:** Coldstuff P Drop

**Dosage Form:** Drop

**Composition:**

Each 1 ml contains:

- **Chlorpheniramine Maleate IP 1 mg**
- **Paracetamol IP 125 mg**
- **Phenylephrine Hydrochloride IP 2.5 mg**

**Description:**

Coldstuff P Drop is a combination used for the symptomatic relief of cold and cough in children. Chlorpheniramine provides antihistaminic action, Paracetamol reduces fever and pain, and Phenylephrine acts as a decongestant to relieve nasal blockage.

**Indications:**

Indicated for:

- Relief of nasal congestion, sneezing, and runny nose
- Reduction of fever and mild pain associated with common cold

It helps in improving comfort and reducing cold symptoms in pediatric patients.

**Dosage & Administration:**

Dosage should be as directed by the physician.

Administer orally using the calibrated dropper.

Shake well before use. Can be given with or without food.

**Pharmacological Action:**

- **Chlorpheniramine Maleate:** Antihistamine that blocks H1 receptors to reduce allergic symptoms
- **Paracetamol:** Analgesic and antipyretic that inhibits prostaglandin synthesis
- **Phenylephrine Hydrochloride:** Sympathomimetic decongestant that constricts nasal blood vessels

**Side Effects:**

Mild drowsiness, nausea, or slight gastrointestinal discomfort may occur in some patients.

**Precautions & Warnings:**

- Use with caution in patients with hypertension, cardiac disease, or liver impairment
- Avoid overdose
- Keep out of reach of children

**Drug Interactions:**

May interact with other sympathomimetics, MAO inhibitors, or hepatotoxic drugs; consult physician before co-administration.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
