

Information For the User
Levocloperastine (20mg/5ml) + Chlorpheniramine Maleate (4mg/5ml) Syrup

Cufsniff LR Syrup

Brand Name:

Cufsniff LR Syrup

Dosage Form:

Syrup

Composition:

Each 5 ml contains:

- **Levocloperastine IP 20 mg**
- **Chlorpheniramine Maleate IP 4 mg**

Description:

Cufsniff LR Syrup is an antitussive and antihistamine combination used for cough management. It helps in suppressing cough reflex and relieving allergic symptoms such as sneezing, runny nose, and throat irritation.

Indications:

Indicated for:

- Dry and allergic cough
- Upper respiratory tract irritation
- Rhinorrhea, sneezing, and throat allergy symptoms

It helps in controlling cough and allergy-related discomfort.

Dosage & Administration:

Use as directed by the physician.

Administer orally using the measuring cup/spoon.

Pharmacological Action:

- **Levocloperastine:** Centrally and peripherally acting antitussive that suppresses the cough reflex.
- **Chlorpheniramine:** H1 antihistamine that reduces allergy-mediated symptoms.

Side Effects:

Drowsiness, mild dizziness, or dry mouth may occur.

Precautions & Warnings:

- Use with caution in children and elderly.
- Avoid alcohol or sedative medications.
- May cause drowsiness; avoid driving.

Drug Interactions:

May interact with CNS depressants, sedatives, or alcohol.

Storage:

Store below 25°C.

Keep in a cool, dry place, protected from light.

Keep out of reach of children.
