

Information For the User
Ambroxol 10mg + Terbutaline 0.5mg + Guaiphenesin 25mg Syrup

Cufstuff Am Junior Syrup

Brand Name: Cufstuff Am Junior

Dosage Form: Syrup

Composition:

Each 5 ml contains:

- **Ambroxol IP 10 mg**
- **Terbutaline Sulphate IP 0.5 mg**
- **Guaifenesin IP 25 mg**

Description:

Cufstuff Am Junior Syrup is a pediatric respiratory formulation that helps in relieving cough, thinning mucus, and easing bronchial secretions. Ambroxol acts as a mucolytic, Terbutaline as a bronchodilator, and Guaifenesin as an expectorant.

Indications:

Indicated for the management of:

- Productive cough in children
 - Bronchitis and other respiratory tract conditions with excessive mucus
- It helps in clearing airways and easing breathing in pediatric patients.

Dosage & Administration:

Dosage should be as directed by the physician.

Administer orally using a measuring spoon or cup.

Shake well before use.

Pharmacological Action:

- **Ambroxol:** Breaks down and thins mucus, facilitating expectoration.
- **Terbutaline:** Stimulates β_2 -adrenergic receptors causing bronchodilation.
- **Guaifenesin:** Loosens and clears mucus from airways.

Side Effects:

Mild nausea or gastrointestinal discomfort may occur in some children.

Precautions & Warnings:

- Use with caution in children with cardiovascular disorders
- Monitor for hypersensitivity reactions

Drug Interactions:

May interact with other β_2 -agonists or adrenergic drugs; consult physician before co-administration.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.
Keep out of reach of children.
