

Information For the User  
Domperidone (10mg/ml) Drop

# Domedeal Drop

**Brand Name:** Domedeal Drop

**Dosage Form:** Drop

**Composition:**

Each 1 ml contains:

- **Domperidone IP 10 mg**

**Description:**

Domedeal Drop is a prokinetic agent used in the management of nausea, vomiting, and delayed gastric emptying. It helps in improving gastrointestinal motility and relieving symptoms of discomfort associated with digestive disturbances.

**Indications:**

Indicated for:

- Nausea and vomiting of various etiologies
- Gastroesophageal reflux symptoms
- Delayed gastric emptying

It helps in promoting gastric motility and symptomatic relief.

**Dosage & Administration:**

Dosage should be as directed by the physician.

Administer orally using a calibrated dropper.

Can be given before meals.

**Pharmacological Action:**

- **Domperidone:** Dopamine D2 receptor antagonist that enhances gastrointestinal motility and accelerates gastric emptying.

**Side Effects:**

Mild headache, dry mouth, or abdominal discomfort may occur in some patients.

**Precautions & Warnings:**

- Use with caution in patients with cardiac arrhythmias or electrolyte imbalance
- Avoid concomitant use with medications known to prolong QT interval
- Monitor for signs of extrapyramidal reactions

**Drug Interactions:**

May interact with CYP3A4 inhibitors and other prokinetic agents; consult physician before co-administration.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
