

Information For the User
Zinc Gluconate 20mg + L. Acidophilus, B. Longum, B. Bifidum, B. Infantis 417mg + Fructo-Oligosaccharide
25mg Pre & Pro Biotic Dry Syrup

Flicktic Z Dry Syrup

Brand Name: Flicktic Z Dry Syrup

Dosage Form: Dry Syrup

Composition:

Each 5 ml after reconstitution contains:

- Zinc Gluconate IP equivalent to elemental Zinc 20 mg
- *Lactobacillus acidophilus*
- *Bifidobacterium longum*
- *Bifidobacterium bifidum*
- *Bifidobacterium infantis* — Total Probiotics 417 mg
- Fructo-Oligosaccharide 25 mg

Description:

Flicktic Z Dry Syrup is a prebiotic and probiotic formulation fortified with zinc, indicated for the management of gastrointestinal disturbances and zinc deficiency states. It helps in restoring normal intestinal microflora, improving digestive health, and supporting immune function, particularly during and after diarrhea or antibiotic therapy.

Indications:

Indicated for the treatment and prevention of:

- Acute and chronic diarrhea
- Antibiotic-associated diarrhea
- Gastrointestinal infections
- Zinc deficiency states
- Digestive disturbances

It helps in maintaining healthy gut flora, reducing the duration and severity of diarrhea, and supporting overall gastrointestinal health.

Dosage & Administration:

Dosage should be as directed by the physician.

Reconstitute with boiled and cooled water up to the mark on the bottle.

Shake well before each use.

Use a calibrated measuring cup or spoon for accurate dosing.

Pharmacological Action:

Zinc plays a vital role in immune function, intestinal mucosal integrity, and enzymatic activity. Probiotics help restore and maintain the balance of beneficial intestinal microorganisms, while fructo-oligosaccharides act as prebiotics that promote probiotic growth, thereby enhancing gut health and nutrient absorption.

Side Effects:

Generally well tolerated.

Occasionally, mild gastrointestinal discomfort such as bloating or flatulence may occur.

Precautions & Warnings:

- Do not exceed the recommended dosage
- Use with caution in immunocompromised patients
- Use under medical supervision in pediatric patients
- Follow proper storage instructions after reconstitution

Drug Interactions:

No clinically significant drug interactions have been reported when used as directed.

Storage:

Store in a cool, dry place below 25°C before reconstitution.

After reconstitution, store under refrigeration and use within the prescribed period.

Protect from light and moisture.

Keep out of reach of children.
