

Information For the User
Modafinil 200mg Tablet

Modagen 200 Tablet

Brand Name: Modagen 200 Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

- **Modafinil IP 200 mg**

Description:

Modagen 200 Tablet contains Modafinil, a wakefulness-promoting agent used in the management of excessive daytime sleepiness. It acts on the central nervous system to improve alertness, cognitive function, and sustained attention without producing generalized stimulation.

Indications:

Indicated for:

- Narcolepsy
- Excessive daytime sleepiness associated with obstructive sleep apnea
- Shift work sleep disorder

It helps in promoting wakefulness and improving daytime alertness.

Dosage & Administration:

Dosage should be taken as directed by the physician.

Administer orally, preferably in the morning or before the work shift. Tablets should be swallowed whole with water.

Pharmacological Action:

Modafinil enhances wakefulness by influencing neurotransmitters such as dopamine, norepinephrine, and histamine in the brain. It inhibits dopamine reuptake, leading to increased extracellular dopamine levels and improved alertness.

Side Effects:

Mild headache, nausea, dizziness, or nervousness may occur in some patients.

Precautions & Warnings:

- Use with caution in patients with cardiovascular disorders
- Monitor blood pressure and heart rate during therapy
- Caution advised in patients with psychiatric history
- Avoid use during pregnancy unless prescribed by a physician

Drug Interactions:

May interact with hormonal contraceptives, anticonvulsants, and CYP-enzyme-modifying drugs.

Storage:

Store below **25°C** in a cool, dry place.

Protect from light and moisture.
Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
