

Information For the User

Ondansetron (2mg) Drop

# Ondoturn Drop

**Brand Name:** Ondoturn Drop

**Dosage Form:** Drop

**Composition:**

Each 1 ml contains:

- **Ondansetron IP 2 mg**

**Description:**

Ondoturn Drop is an antiemetic used to prevent and treat nausea and vomiting. It works by selectively blocking serotonin 5-HT<sub>3</sub> receptors in the central nervous system and gastrointestinal tract, thereby reducing the vomiting reflex.

**Indications:**

Indicated for:

- Prevention of nausea and vomiting associated with chemotherapy, radiotherapy, or surgery
- It helps in controlling acute and delayed episodes of nausea and vomiting.

**Dosage & Administration:**

Dosage should be as directed by the physician.

Administer orally using a dropper.

Can be given with or without food.

**Pharmacological Action:**

- **Ondansetron:** Selective 5-HT<sub>3</sub> receptor antagonist that inhibits the action of serotonin, a natural substance that may cause nausea and vomiting.

**Side Effects:**

Generally well tolerated. Mild headache, constipation, or dizziness may occur in some patients.

**Precautions & Warnings:**

- Use with caution in patients with hepatic impairment
- Monitor for QT prolongation in at-risk patients
- Discontinue and consult physician if hypersensitivity occurs

**Drug Interactions:**

May interact with other serotonergic drugs or medications that prolong QT interval.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**

**(An ISO 9001: 2015 Certified Co.)**
