

Information For the User
Paracetamol (250mg/5ml) Syrup

Parastave 250 Syrup

Brand Name: Parastave 250 Syrup

Dosage Form: Syrup

Composition:

Each 5 ml contains:

- Paracetamol IP 250 mg

Description:

Parastave 250 Syrup contains Paracetamol, an analgesic and antipyretic indicated for the management of pain and fever. It helps in providing symptomatic relief from mild to moderate pain and reducing elevated body temperature.

Indications:

Indicated for the treatment of:

- Fever
- Headache
- Musculoskeletal pain
- Dental pain
- Post-operative pain

It helps in relieving pain and reducing fever.

Dosage & Administration:

Dosage should be as directed by the physician.

Shake well before use.

Use a calibrated measuring cup or spoon for accurate dosing.

Pharmacological Action:

Paracetamol acts centrally on the hypothalamic heat-regulating center to produce antipyresis and inhibits prostaglandin synthesis in the central nervous system, providing analgesic effects. It does not possess significant anti-inflammatory activity at therapeutic doses.

Side Effects:

Generally well tolerated.

Occasionally, mild nausea, rash, or hypersensitivity reactions may occur. Rarely, hepatotoxicity may be observed with overdose.

Precautions & Warnings:

- Use with caution in patients with hepatic impairment or chronic alcohol consumption
- Do not exceed the recommended dosage
- Use under medical supervision in pediatric and elderly patients

Drug Interactions:

Concomitant use with other hepatotoxic drugs or excessive alcohol may increase the risk of liver toxicity. Use under medical supervision.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
