

Tioprime

Tiotropium (9mcg) Inhaler

- Long-acting anticholinergic (LAMA) bronchodilator.
- Provides 24-hour bronchodilation with once-daily use.
- Relaxes airway smooth muscles and reduces bronchospasm.
- Improves lung function and breathing capacity.
- Decreases frequency of COPD exacerbations.
- Enhances exercise tolerance and quality of life.
- Suitable for long-term maintenance therapy.
- Helps reduce rescue inhaler dependence with regular use.
