

Information For the User
Azithromycin (100mg/5ml) Syrup

Zithovora 100 Syrup

Brand Name: Zithovora 100 Syrup

Dosage Form: Syrup

Composition:

Each 5 ml contains:

- **Azithromycin IP 100 mg**

Description:

Zithovora 100 Syrup is a macrolide antibiotic used for the treatment of various bacterial infections. It helps in inhibiting bacterial protein synthesis, thereby preventing bacterial growth and aiding in recovery from infections.

Indications:

Indicated for:

- Respiratory tract infections such as pneumonia, bronchitis, and sinusitis
- Skin and soft tissue infections
- Ear, nose, and throat infections

It helps in eradicating susceptible bacterial pathogens.

Dosage & Administration:

Dosage should be as directed by the physician.

Administer orally, preferably on an empty stomach.

Measure accurately using a calibrated measuring device.

Pharmacological Action:

- **Azithromycin:** Binds to the 50S ribosomal subunit of susceptible bacteria, inhibiting protein synthesis and bacterial replication

Side Effects:

Mild diarrhea, nausea, or abdominal discomfort may occur in some patients.

Precautions & Warnings:

- Use with caution in patients with hepatic impairment
- Not recommended during pregnancy unless advised by the physician
- Monitor for allergic reactions or hypersensitivity

Drug Interactions:

May interact with antacids, warfarin, or other CYP3A4-metabolized drugs; consult physician before co-administration.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
