

Information For the User
Acenocoumarol (1mg) Tablet

Acenomore 1 Tablet

Brand Name: Acenomore 1 Tablet

Dosage Form: Tablet

Composition:

Each tablet contains:

Acenocoumarol I.P. 1 mg

Therapeutic Segment:

Cardiovascular / Anticoagulant Segment

Therapeutic Indication:

Indicated for:

- Prevention and treatment of **thromboembolic disorders** such as deep vein thrombosis (DVT) and pulmonary embolism (PE).
- Prevention of **stroke** and **systemic embolism** in patients with atrial fibrillation or prosthetic heart valves.
It helps in **preventing abnormal blood clot formation** and maintaining smooth blood circulation.

Mechanism of Action:

- **Acenocoumarol** is a vitamin K antagonist that inhibits the synthesis of vitamin K–dependent clotting factors (II, VII, IX, and X) in the liver.
- This leads to a reduction in blood coagulation activity, thereby preventing thrombus formation.

Dosage & Administration:

- The dosage should be individualized and adjusted based on INR (International Normalized Ratio) monitoring.
- Usual starting dose: 1 mg to 2 mg daily or as directed by the physician.
- Take orally at the same time each day.
- Do not discontinue abruptly without medical supervision.

Contraindications:

- Active bleeding or bleeding disorders.
- Severe liver or kidney impairment.
- Pregnancy (Category X) due to risk of fetal harm.
- Hypersensitivity to acenocoumarol or other coumarin derivatives.

Warnings & Precautions:

- Regular INR monitoring is essential to maintain therapeutic levels.
- Avoid sudden changes in diet, especially foods rich in vitamin K (e.g., green leafy vegetables).
- Use with caution in elderly patients and those with a history of peptic ulcers or bleeding.
- Avoid concurrent use with other anticoagulants or NSAIDs unless prescribed.

Side Effects:

- Common: Bleeding, bruising, nosebleeds.
- Rare: Hematuria, gastrointestinal bleeding, rash, alopecia, or hepatic enzyme elevation.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Packaging:

Acenomore 1 Tablet is available in blister packs of 10 tablets.

Schedule:

Schedule H Drug – To be sold by retail on the prescription of a Registered Medical Practitioner only.
