- Can be taken **with or without food** at the same time each day.

Contraindications:

- **Severe hypotension (low blood pressure)**
- **Cardiogenic shock or heart failure**
- **Known hypersensitivity to Amlodipine**
- **Pregnancy & lactation (use with caution)**

Warnings & Precautions:

- **May cause dizziness;** avoid sudden movements and activities requiring alertness.
- **Monitor blood pressure regularly** to prevent excessive lowering.
- **Use cautiously in liver disease patients.**
- **Avoid excessive alcohol intake**, which may enhance the blood pressure-lowering effect.

Adverse Effects:

- **Dizziness or headache**
- **Swelling of feet or ankles (fluid retention)**
- **Fatigue or palpitations**
- **Flushing (warm sensation in the face)**

Storage:

- Store below **30°C** in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
