

Amlotyle 2.5 Tablet

Amlotyle 2.5 Tablet – Mild-Dose Blood Pressure Control

Composition:

Each **Amlotyle 2.5 Tablet** contains:

- **Amlodipine 2.5 mg** – A calcium channel blocker (CCB) used for hypertension and angina treatment.

Description:

Amlotyle 2.5 Tablet is a **low-dose calcium channel blocker (CCB)** designed for **mild hypertension and angina management**. It works by **relaxing blood vessels, improving blood circulation, and reducing the heart's workload**, helping to prevent cardiovascular complications.

Pharmacological Action:

- **Lowers Blood Pressure** – Reduces vascular resistance for better circulation.
- **Prevents Angina** – Enhances oxygen supply to the heart, reducing chest pain episodes.
- **Cardiovascular Support** – Helps in preventing strokes and heart-related issues in hypertensive patients.

Indications:

Amlotyle 2.5 Tablet is used for:

- **Mild Hypertension (High Blood Pressure)**
- **Chronic Stable Angina (Chest Pain Relief)**
- **Vasospastic Angina (Prinzmetal's Angina)**

Dosage & Administration:

- **Usual Dose:** One tablet **once daily** with or without food.
- **Dosage adjustments** may be needed as per the physician's advice.

Contraindications:

- Allergy to **Amlodipine** or any excipients.
- Severe **low blood pressure (hypotension)** or **cardiogenic shock**.
- Severe **heart failure** or **aortic stenosis**.

Warnings & Precautions:

- Use cautiously in patients with **liver impairment**.
- May cause **dizziness or fatigue**—avoid driving until effects are known.

- Regular blood pressure monitoring is recommended.

Adverse Effects:

- **Common:** Swelling in ankles, dizziness, flushing, headache.
- **Rare:** Fatigue, palpitations, nausea.

Drug Interactions:

- Effects may be increased with **antifungals (ketoconazole), macrolides (erythromycin), and grapefruit juice.**
- Use caution when combined with **beta-blockers or other antihypertensive drugs** to avoid excessive BP lowering.

Storage Conditions:

- Store at room temperature **below 30°C.**
- Protect from **moisture and direct sunlight.**
- Keep out of reach of children.

Conclusion:

Amlotyle 2.5 Tablet is a **low-dose, well-tolerated** treatment for **mild hypertension and angina**, offering cardiovascular protection with once-daily convenience.
