

Apixatyle 2.5 Tablet

Apixatyle 2.5 Tablet

Composition:

Each tablet contains:

- **Apixaban IP** – 2.5 mg
- **Excipients** – q.s.

Description:

Apixatyle 2.5 Tablet contains **Apixaban**, a **direct Factor Xa inhibitor** used as an **oral anticoagulant** to prevent and treat blood clots. It helps reduce the risk of **stroke, systemic embolism, and thromboembolism-related conditions**.

Indications:

- **Prevention of stroke and systemic embolism** in patients with **non-valvular atrial fibrillation**
- **Treatment and prevention of deep vein thrombosis (DVT) and pulmonary embolism (PE)**
- **Post-surgical thromboprophylaxis** after hip or knee replacement

Dosage & Administration:

- **Usual dose:** One tablet **twice daily**, or as prescribed by a healthcare professional.
- Can be taken **with or without food**.

Contraindications:

- **Active bleeding disorders**
- **Severe hepatic impairment or coagulation disorders**
- **Hypersensitivity to Apixaban or its excipients**

Warnings & Precautions:

- **Monitor for signs of bleeding** (bruising, gum bleeding, blood in urine/stools).
- **Use with caution in patients with renal or hepatic impairment.**
- **Not recommended in patients with prosthetic heart valves.**
- **Avoid sudden discontinuation** to prevent thrombotic complications.

Adverse Effects:

- **Bleeding complications**
- **Anemia, nausea**
- **Bruising, dizziness**

Storage:

- Store below **30°C** in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
