

Atnik 50 Tablet

Atnik 50 Tablet

Composition:

Each tablet contains:

- **Atenolol IP** – 50 mg
- **Excipients** – q.s.

Description:

Atnik 50 Tablet contains **Atenolol**, a **beta-blocker** used to manage **hypertension (high blood pressure)**, **angina (chest pain)**, and **cardiac arrhythmias**. It helps by slowing down the heart rate and reducing its workload, improving overall heart function.

Indications:

- **Hypertension (High Blood Pressure)**
- **Angina Pectoris (Chest Pain due to Heart Disease)**
- **Cardiac Arrhythmias (Irregular Heartbeat)**
- **Prevention of Heart Attacks (Post-Myocardial Infarction Therapy)**

Dosage & Administration:

- **Usual dose:** 50 mg **once daily**, or as prescribed by a healthcare professional.
- Can be taken **with or without food**, preferably at the same time each day.

Contraindications:

- **Severe bradycardia (slow heart rate)**
- **Cardiogenic shock & heart block**
- **Severe hypotension (low blood pressure)**
- **Asthma or severe chronic obstructive pulmonary disease (COPD)**

Warnings & Precautions:

- **Monitor blood pressure and heart rate regularly.**
- **Use with caution in diabetic patients** as it may mask symptoms of hypoglycemia.
- **Not to be discontinued abruptly** to avoid rebound hypertension or worsening angina.
- **Avoid in patients with severe peripheral vascular disease.**

Adverse Effects:

- **Dizziness, fatigue**
- **Cold extremities, bradycardia (slow heart rate)**
- **Shortness of breath, nausea**

Storage:

- Store below **30°C** in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
