

Beniflip T tablet

Beniflip T Tablet

Composition:

Each tablet contains:

- **Benidipine Hydrochloride IP** – 4 mg
- **Telmisartan IP** – 40 mg
- **Excipients** – q.s.

Description:

Beniflip T Tablet is a **combination of an angiotensin II receptor blocker (Telmisartan) and a calcium channel blocker (Benidipine)**, formulated for the **management of hypertension (high blood pressure)**. This combination provides **effective blood pressure control** by **relaxing blood vessels**, improving blood flow, and reducing the risk of cardiovascular complications.

Indications:

- **Essential hypertension (high blood pressure)**
- **Cardiovascular risk reduction in hypertensive patients**

Dosage & Administration:

- **Usual dose:** One tablet once daily or as prescribed by a physician.
- Can be taken **with or without food**, preferably at the same time each day.

Contraindications:

- **Hypersensitivity to Telmisartan, Benidipine, or any excipients**
- **Severe liver or kidney impairment**
- **Pregnancy and lactation**

Warnings & Precautions:

- **Monitor blood pressure regularly.**
- **Use with caution in renal and hepatic impairment.**
- **Avoid excessive potassium intake**, as Telmisartan may increase potassium levels.
- **Use cautiously in patients with a history of heart failure or coronary artery disease.**

Adverse Effects:

- **Dizziness, headache, fatigue**
- **Hypotension (low blood pressure)**
- **Peripheral edema (swelling in the legs and ankles)**
- **Increased potassium levels (hyperkalemia)**

Storage:

- Store below **30°C**, in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
