

Bisopair T Tablet

Bisopair T Tablet

Composition:

Each tablet contains:

- **Bisoprolol Fumarate IP** – 5mg
- **Telmisartan IP** – 40mg
- **Excipients** – q.s.

Description:

Bisopair T Tablet is a **fixed-dose combination of a beta-blocker (Bisoprolol) and an angiotensin receptor blocker (Telmisartan)**, designed to **effectively manage hypertension and reduce cardiovascular risks**. This combination helps **lower blood pressure, improve heart function, and prevent complications like stroke and heart failure**.

Indications:

- **Hypertension (High Blood Pressure)**
- **Cardiovascular Risk Reduction**
- **Heart Failure Management (in selected cases)**

Dosage & Administration:

- **One tablet once daily**, or as directed by a physician.
- Best taken **at the same time every day**, with or without food.

Contraindications:

- **Severe bradycardia (low heart rate)**
- **Cardiogenic shock or decompensated heart failure**
- **Severe hepatic or renal impairment**
- **Pregnancy and lactation**

Warnings & Precautions:

- Use with caution in **diabetic patients**, as Bisoprolol may mask symptoms of hypoglycemia.
- Avoid sudden discontinuation to prevent **rebound hypertension or worsening heart failure**.
- Regular monitoring of **blood pressure, heart rate, and kidney function** is recommended.

Adverse Effects:

- **Dizziness, fatigue, and weakness**
- **Bradycardia (slow heart rate)**
- **Hypotension (low blood pressure)**
- **Electrolyte imbalances**

Storage:

- Store below **30°C**, in a **cool, dry place**, away from moisture and direct sunlight.
- Keep out of reach of **children**.
