

Burnstep Cream

Burnstep Cream

Composition:

Each gram contains:

- **Chlorhexidine Gluconate 0.20% w/w** – Antiseptic & Antimicrobial
- **Silver Nitrate 0.20% w/w** – Broad-spectrum Antibacterial & Wound Healing Agent

Description:

Burnstep Cream is a **topical antimicrobial formulation** designed for **burns, wounds, and skin infections**. **Chlorhexidine Gluconate** acts as an antiseptic, preventing bacterial growth, while **Silver Nitrate** provides a powerful antibacterial effect, aiding in wound healing and infection prevention.

Indications:

- **Burn wound management** (first & second-degree burns)
- **Skin infections and ulcers**
- **Wound healing & prevention of bacterial colonization**
- **Cuts, abrasions, and minor skin injuries**

Dosage & Administration:

- **Clean the affected area** before applying the cream.
- Apply a **thin layer** to the wound **1-2 times daily** or as directed by a physician.
- **Do not cover with tight bandages** unless prescribed.
- Use for the **recommended duration** to ensure proper healing.

Contraindications:

- **Hypersensitivity** to Chlorhexidine or Silver compounds.
- **Not for use on deep wounds or large burns** without medical supervision.
- **Avoid prolonged use** to prevent silver accumulation in the skin.

Warnings & Precautions:

- **For external use only.**
- **Avoid contact with eyes, nose, and mouth.**
- **May cause temporary skin discoloration** due to silver content.
- **Consult a doctor** if symptoms persist or worsen.

Side Effects:

- Mild **burning or stinging** sensation on application
- **Skin irritation or allergic reaction** (rare)
- **Temporary discoloration of the skin**

Storage Instructions:

- **Store below 25°C in a cool, dry place.**
- **Keep away from direct sunlight & heat.**
- **Keep out of reach of children.**
