

# Cardistep CR 10 Tablet

## Cardistep CR 10 Tablet

### Composition:

Each controlled-release tablet contains:

- **Carvedilol IP** – 10mg
- **Excipients** – q.s.

### Description:

Cardistep CR 10 Tablet is a **beta-blocker with alpha-blocking activity** used to treat **hypertension, heart failure, and post-myocardial infarction (Post-MI) care**. It helps **reduce blood pressure, improve heart function, and manage cardiovascular conditions effectively**.

### Indications:

- **Hypertension (High Blood Pressure)**
- **Chronic Heart Failure (CHF)**
- **Post-Myocardial Infarction (Post-MI) Care**
- **Left Ventricular Dysfunction**

### Dosage & Administration:

- One tablet **once daily**, or as directed by a physician.
- Take **with food** to improve absorption and reduce side effects.

### Contraindications:

- **Severe bradycardia (slow heart rate)**
- **Cardiogenic shock**
- **Uncontrolled asthma or COPD**
- **Severe hepatic impairment**

### Warnings & Precautions:

- Use with caution in **diabetic patients**, as it may mask hypoglycemia symptoms.
- Avoid **sudden discontinuation** to prevent **rebound hypertension or heart failure worsening**.
- Monitor for **dizziness, fatigue, or low blood pressure**.

### Adverse Effects:

- **Dizziness, fatigue, weakness**
- **Bradycardia (slow heart rate)**
- **Hypotension (low blood pressure)**
- **Fluid retention or mild swelling**

**Storage:**

- Store in a **cool, dry place** below **30°C**, away from direct sunlight and moisture.
- Keep out of reach of **children**.
