

Information For the User  
Cilostazol 50mg Tablet

# Cilospace 50 Tablet

**Brand Name:** Cilospace 50 Tablet

**Dosage Form:** Tablet

**Composition:**

Each film-coated tablet contains:

- **Cilostazol IP 50 mg**

**Description:**

Cilospace 50 Tablet is an antiplatelet and vasodilator used in the management of peripheral arterial disease. It helps in **improving blood flow, reducing platelet aggregation, and relieving symptoms like intermittent claudication.**

**Indications:**

Indicated for the treatment of:

- Intermittent claudication due to peripheral arterial disease
- Improvement of walking distance and reduction of leg discomfort

It helps in **enhancing circulation and promoting mobility in patients with reduced blood flow.**

**Dosage & Administration:**

Dosage should be individualized as directed by the physician.

Administer orally, **usually twice daily**, 30 minutes before or 2 hours after meals.

Swallow tablets whole with water.

**Pharmacological Action:**

- **Cilostazol:** A phosphodiesterase III inhibitor that increases cyclic AMP in platelets and blood vessels, leading to inhibition of platelet aggregation and vasodilation.

**Side Effects:**

Mild headache, dizziness, or gastrointestinal discomfort may occur in some patients.

**Precautions & Warnings:**

- Use with caution in patients with heart failure or bleeding disorders.
- Monitor for palpitations or irregular heartbeat.
- Avoid concomitant use with strong CYP3A4 inhibitors or inducers.

**Drug Interactions:**

May interact with anticoagulants, antiplatelet agents, or CYP3A4-modulating drugs; consult physician for co-administration.

**Storage:**

Store below **25°C** in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**

**(An ISO 9001: 2015 Certified Co.)**
