

Citiflip P Tablet

Citicoline (500mg) + Piracetam (800mg) Tablet

This tablet combines Citicoline and Piracetam, two potent neuroprotective and cognitive-enhancing agents. It is commonly used for individuals experiencing cognitive impairment, memory issues, or those recovering from neurological injuries.

Composition per Tablet:

- Citicoline (as Sodium Salt): 500 mg
 - Piracetam: 800 mg
-

Indications:

1. **Cognitive Decline & Dementia:** Improves cognitive functions in conditions like Alzheimer's disease and other age-related memory disorders.
 2. **Stroke Recovery:** Facilitates post-stroke recovery by promoting neuronal repair and improving cognitive functions.
 3. **Traumatic Brain Injury (TBI):** Assists in the recovery of cognitive functions following head trauma.
 4. **Cerebral Dysfunction:** Can be used to enhance brain function and mitigate symptoms of conditions like cerebral insufficiency and hypoxia.
-

Dosage & Administration:

- **Adults:**
 - Initial Dose: 1 tablet twice daily (morning and evening), or as prescribed by your healthcare provider.

- **Maintenance Dose:** 1 tablet once or twice daily, depending on the doctor's recommendations.

Administration:

- Take the tablet orally with a glass of water, preferably after meals to reduce stomach discomfort.
-

Benefits of Key Ingredients:

- **Citicoline (500mg):**
 - Improves the integrity of brain cell membranes.
 - Protects neurons from oxidative damage and enhances neuroplasticity.
 - Supports overall brain health and cognitive performance.
 - **Piracetam (800mg):**
 - Enhances brain metabolism by increasing the availability of oxygen and glucose to the brain.
 - Promotes neuroplasticity and the brain's ability to form new connections, improving cognitive function over time.
-

Side Effects:

- **Common Side Effects:**
 - Mild headache
 - Nervousness
 - Dizziness or lightheadedness
 - Nausea or mild gastrointestinal discomfort
- **Serious Side Effects (Rare):**

- Allergic reactions (e.g., rash, itching, swelling, or difficulty breathing)
- Severe headaches or migraines
- Restlessness or irritability

If any of these side effects are severe or persistent, contact your healthcare provider immediately.

Precautions:

1. **Hypersensitivity:** This medication should not be used by individuals who are allergic to Citicoline, Piracetam, or any of the excipients.
2. **Renal or Hepatic Impairment:** Use with caution in patients with impaired kidney or liver function.
3. **Seizure Disorders:** Piracetam may lower the threshold for seizures; caution is advised for individuals with a history of seizures or epilepsy.
4. **Pregnancy & Breastfeeding:** It should only be used during pregnancy or breastfeeding if the benefits outweigh the risks. Consult your healthcare provider.

Drug Interactions:

- **Anticoagulants (e.g., Warfarin):** Citicoline may enhance the effects of blood-thinning medications, so careful monitoring of coagulation is necessary.
- **Anticonvulsants (e.g., Phenytoin):** Piracetam may interact with anticonvulsants, altering their effect on the central nervous system.

Overdose Symptoms:

- **Symptoms of overdose may include:**
 - Excessive drowsiness or lethargy
 - Severe headache

- Dizziness
- Gastrointestinal discomfort or nausea

In case of overdose, seek immediate medical attention.

Storage:

- Store the tablets at room temperature (15–25°C).
- Keep the tablets in a dry, cool place, away from light and moisture.

Key Counseling Points:

1. Follow the prescribed dosage and do not exceed the recommended dose.
2. Take the medication as directed, preferably with meals to avoid stomach upset.
3. If any side effects or allergic reactions occur, inform your doctor immediately.
4. Store the tablets properly and keep them out of reach of children.

Conclusion:

Citicoline (500mg) + Piracetam (800mg) Tablet is an effective combination for enhancing cognitive function, supporting recovery from neurological injuries like strokes or traumatic brain injury, and improving memory and attention.
