

Information For the User
Amoxicillin (750mg) + Pantoprazole (40mg) + Clarithromycin (500mg) Tablet

Panpital HP Kit

Panpital HP Kit

Dosage Form: Tablet

Composition:

Each combi-kit contains:

Amoxicillin I.P. 750 mg

Pantoprazole Sodium I.P. equivalent to Pantoprazole 40 mg

Clarithromycin I.P. 500 mg

Description:

Panpital HP Kit is a combination therapy containing Amoxicillin, Clarithromycin, and Pantoprazole, indicated for the eradication of *Helicobacter pylori* infection associated with peptic ulcer disease. The combination works by suppressing gastric acid secretion while simultaneously eliminating bacterial infection, thereby promoting ulcer healing and reducing recurrence of gastric and duodenal ulcers.

Indications:

Helicobacter pylori associated peptic ulcer disease

Duodenal ulcer

Gastric ulcer

Chronic gastritis associated with H. pylori infection

Prevention of ulcer recurrence following H. pylori eradication

Dosage & Administration:

Dosage should be taken as directed by the physician.

Usually administered as part of triple therapy for a prescribed treatment duration.

Tablets should be swallowed whole with water before meals or as advised by the physician.

Pharmacological Action:

Pantoprazole is a proton pump inhibitor that suppresses gastric acid secretion by inhibiting the H⁺/K⁺-ATPase enzyme system in gastric parietal cells.

Amoxicillin acts by inhibiting bacterial cell wall synthesis leading to bacterial cell death.

Clarithromycin inhibits bacterial protein synthesis by binding to the 50S ribosomal subunit, thereby eliminating *H. pylori* infection.

Side Effects:

Nausea

Diarrhea

Abdominal discomfort

Altered taste sensation

Headache

Precautions & Warnings:

Use under medical supervision only.

Complete the full course of therapy to prevent antibiotic resistance.
Use cautiously in patients with hepatic or renal impairment.
Not recommended in patients with known hypersensitivity to macrolides or penicillins.

Drug Interactions:

May interact with anticoagulants, statins, and other drugs metabolized via hepatic enzymes.
Inform physician about all concomitant medications before use.

Storage:

Store below 25°C in a dry place.
Protect from light and moisture.
Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
