

# Clotimet Dusting Powder

## Clotrimazole (1% w/w) Dusting Powder

---

### Composition

Each gram of powder contains:

- Clotrimazole (1% w/w)
- 

### Indications

Clotrimazole Dusting Powder is indicated for the topical treatment of fungal skin infections, including:

- Tinea Pedis (Athlete's Foot)
- Tinea Cruris (Jock Itch)
- Tinea Corporis (Ringworm)
- Candidiasis (Yeast Infections)
- Cutaneous Dermatophyte Infections
- Intertrigo (irritation between skin folds)

It is also useful for preventing fungal infections in areas prone to excessive sweating or moisture, such as the feet, groin, and underarms.

---

### Mechanism of Action

Clotrimazole is an antifungal agent that works by inhibiting the synthesis of ergosterol, a key component of fungal cell membranes. This disrupts the integrity of the fungal cell membrane, causing cell leakage and ultimately leading to the death of the fungus. It is effective against a broad range of fungi, including dermatophytes, yeasts, and molds.

---

### Benefits

- **Effective Fungal Treatment:** Clotrimazole is highly effective in treating common superficial fungal infections.
- **Relieves Itching & Burning:** Helps alleviate the discomfort caused by fungal skin infections, including itching, redness, and burning sensations.

- **Prevents Recurrence:** Helps prevent further fungal infections when used as a prophylactic treatment.
  - **Non-Greasy Formula:** The dusting powder formulation is non-greasy and dries quickly, making it suitable for use in moist areas of the body.
- 

### How to Use

1. **Clean the Affected Area:** Wash and dry the affected area thoroughly before application.
  2. **Apply a Thin Layer:** Sprinkle a small amount of the dusting powder onto the affected area.
  3. **Massage Gently:** Lightly rub the powder into the skin, ensuring even coverage.
  4. **Use Twice Daily:** Apply the powder in the morning and evening, or as prescribed by your doctor.
  5. **Avoid Contact with Eyes:** Do not allow the powder to come into contact with eyes, mucous membranes, or open wounds.
  6. **Wash Hands:** After application, wash your hands thoroughly unless they are the treated area.
- 

### Precautions

- **Allergic Reactions:** If any irritation, redness, or signs of allergic reactions develop, discontinue use and consult your healthcare provider.
  - **Not for Oral Use:** This product is for external use only. Avoid ingestion.
  - **Not for Open Wounds:** Do not apply the powder to broken or open skin unless directed by your doctor.
  - **Prolonged Use:** Prolonged use may require medical supervision. Consult your doctor if the infection persists or worsens after a few weeks of treatment.
  - **Pregnancy & Breastfeeding:** Consult your healthcare provider before using this product during pregnancy or breastfeeding.
- 

### Storage Instructions

- Store in a cool, dry place, away from direct sunlight.
- Keep the container tightly closed when not in use.
