

Colybuds Drop

**Dill Oil (0.005 ml) + Fennel Oil (0.0007 ml) +
Simethicone (40 mg) Drops**

Composition

Each dose of the drop contains the following active ingredients:

- Dill Oil: 0.005 ml
- Fennel Oil: 0.0007 ml
- Simethicone: 40 mg

Description

This formulation combines natural essential oils with simethicone to offer effective relief from digestive discomforts such as bloating, gas, and indigestion. Dill oil and fennel oil are well-known for their digestive benefits, particularly their ability to soothe the stomach and reduce flatulence. Simethicone, a well-established anti-foaming agent, helps to break down gas bubbles in the stomach and intestines, easing bloating and discomfort.

Mechanism of Action

- **Dill Oil:** Known for its carminative properties, dill oil helps to alleviate symptoms of indigestion and supports digestive health by relaxing the muscles in the gastrointestinal tract and reducing gas.
- **Fennel Oil:** It aids in the relief of bloating and gastrointestinal cramps, promoting healthy digestion by acting as a natural antispasmodic and carminative.
- **Simethicone:** This active ingredient works by reducing surface tension of gas bubbles, making it easier for them to combine and pass through the digestive system, thereby reducing bloating and discomfort.

Indications

- Relief from bloating, gas, and indigestion.
- Helps ease discomfort associated with colic, flatulence, and other gastrointestinal issues.
- Support for digestive health in both adults and children (as prescribed by a healthcare provider).

Dosage and Administration

- **For Adults and Children (as prescribed):**
 - Take 1-2 drops orally 2-3 times a day or as directed by your healthcare professional.
 - Place the drops directly on the tongue or dilute them in a small amount of water or juice.
 - For children, consult a doctor for the correct dosage based on age and weight.
- **Directions for Use:**
 1. Shake the bottle gently before use.
 2. Use the dropper to measure the correct dose.
 3. Administer the drops directly onto the tongue or mix with a small amount of liquid as recommended.

Contraindications

- Do not use if you are allergic to any of the ingredients (dill oil, fennel oil, simethicone).
- Not suitable for individuals with gastrointestinal obstruction or severe digestive issues unless advised by a healthcare professional.

Precautions

- **Pregnancy and Lactation:** Consult your doctor before using this product during pregnancy or while breastfeeding.
- **Children:** This product should be used in children under medical supervision, especially those younger than 2 years of age.
- **Existing Medical Conditions:** People with pre-existing gastrointestinal conditions such as gastritis, ulcers, or irritable bowel syndrome (IBS) should consult a doctor before using this product.

Side Effects

While generally well-tolerated, some possible side effects may include:

- Mild gastrointestinal discomfort, such as nausea or upset stomach.

- Allergic reactions like rash or itching (rare).
 - If any unusual symptoms persist or worsen, discontinue use and consult a healthcare professional.
-

Storage

- Store at room temperature (15-25°C), away from heat and direct sunlight.
 - Ensure the bottle is tightly closed and kept out of reach of children.
 - Do not use after the expiration date printed on the packaging.
-

Warning

- Do not exceed the recommended dose.
 - If symptoms do not improve or worsen after using the drops, consult a healthcare provider for further evaluation.
 - Keep the product in its original packaging to avoid contamination and preserve its efficacy.
-

For oral use only. Keep out of reach of children.
