## Calcium Dobesilate Monohydrate I.P. 500 mg Capsule

Calcium Dobesilate Monohydrate 500 mg is a vasoactive medication designed to improve microcirculation and manage conditions involving vascular and capillary abnormalities. It is commonly used for chronic venous insufficiency, diabetic retinopathy, and hemorrhoids.

### Composition (per capsule):

- Calcium Dobesilate Monohydrate I.P. 500 mg

### Uses:

1. **Chronic Venous Insufficiency:**
  - Reduces leg swelling, pain, and heaviness caused by poor blood circulation.
2. **Diabetic Retinopathy:**
  - Manages and prevents vascular complications in diabetes affecting the eyes.
3. **Hemorrhoids:**
  - Alleviates pain, swelling, and bleeding associated with piles.
4. **Varicose Veins:**
  - Improves blood flow and minimizes venous dilation.
5. **Capillary Fragility:**
  - Strengthens blood vessel walls to reduce the risk of bleeding and edema.

### Mechanism of Action:

- Calcium Dobesilate Monohydrate works by stabilizing capillary walls, decreasing capillary permeability, and improving blood viscosity. This enhances microcirculation, reduces edema, and supports vascular health.

### Dosage & Administration:

- **Adults:** 1 capsule twice daily, or as prescribed by a healthcare professional.
- **Duration of Treatment:** Depends on the severity of the condition and medical advice.

### Side Effects:

- **Common:**
  - Nausea, diarrhea, or mild abdominal discomfort.
- **Rare (serious):**
  - Allergic reactions (rash, itching, swelling).
  - Agranulocytosis (extremely rare, monitor for signs of infection).

### Precautions:

1. **Allergy:** Avoid use if allergic to Calcium Dobesilate or any of the capsule's components.
2. **Pregnancy and Lactation:** Use only if prescribed by a healthcare provider.
3. **Renal Impairment:** Caution is advised in patients with kidney disorders.
4. **Blood Disorders:** Discontinue use and consult a doctor if unusual bleeding, bruising, or signs of infection occur.

---

## **Drug Interactions:**

- **May interact with anticoagulants or antiplatelet drugs, increasing the risk of bleeding.**
  - **Inform the doctor of any other ongoing medications before starting this capsule.**
- 

## **Storage:**

- **Store in a cool, dry place below 30°C.**
  - **Protect from light and moisture.**
  - **Keep out of reach of children.**
- 

**Note: This medication should be used under the supervision of a healthcare provider. Regular monitoring may be required for patients with chronic conditions or those on long-term therapy. If symptoms persist or worsen, consult a doctor promptly.**
