

# Droxifix 200 LB Tablet

## Droxifix 200 LB Tablet

### Composition:

Each tablet contains:

- Cefadroxil – 250 mg
- Lactobacillus spores – q.s.

### Description:

Droxifix 200 LB Tablet is a combination of Cefadroxil, a first-generation cephalosporin antibiotic, and Lactobacillus spores, which help maintain gut flora. It is used to treat bacterial infections while reducing the risk of antibiotic-associated gastrointestinal disturbances.

### Pharmacological Action:

- **Cefadroxil:** Inhibits bacterial cell wall synthesis, effectively treating susceptible bacterial infections.
- **Lactobacillus spores:** Restore healthy gut microbiota, preventing antibiotic-associated diarrhea and gastrointestinal discomfort.

### Indications:

- Respiratory tract infections (e.g., pharyngitis, tonsillitis, bronchitis)
- Skin and soft tissue infections
- Urinary tract infections
- Ear, nose, and throat infections
- Prophylactic use to prevent secondary bacterial infections

### Dosage & Administration:

- Recommended dosage: One tablet once or twice daily, or as directed by a physician.
- Can be taken with or without food.

### Contraindications:

- Hypersensitivity to cephalosporins, penicillins, or any component of the formulation.
- Patients with a history of severe gastrointestinal conditions, especially antibiotic-associated colitis.

### Warnings & Precautions:

- Use with caution in patients with renal impairment; dose adjustment may be required.
- Prolonged use may lead to fungal or bacterial superinfections.
- Monitor for signs of allergic reactions, especially in patients with a history of beta-lactam allergy.

**Adverse Effects:**

- Nausea, vomiting, diarrhea
- Abdominal discomfort
- Skin rash, allergic reactions
- Dizziness, headache
- Gastrointestinal disturbances due to antibiotic use

**Drug Interactions:**

- May reduce the efficacy of oral contraceptives.
- Antacids or H2 blockers may reduce Cefadroxil absorption.
- Concomitant use with nephrotoxic drugs should be avoided.

**Storage Conditions:**

- Store in a cool, dry place below 25°C.
- Keep in the original packaging to protect from moisture and light.
- Keep out of reach of children.

**Conclusion:**

Droxifix 200 LB Tablet is an effective antibiotic for treating bacterial infections while helping maintain gut health. Its combination of Cefadroxil and Lactobacillus spores ensures optimal therapeutic efficacy with reduced gastrointestinal side effects.
