

Information For the User
Esomeprazole (10mg) Sachet

Esoable Junior Sachet

Brand Name: Esoable Junior Sachet

Composition:

Each sachet contains

Esomeprazole Magnesium Trihydrate IP equivalent to Esomeprazole 10 mg

Therapeutic Indication:

Indicated for the short-term treatment of gastroesophageal reflux disease (GERD) in children

Also used for healing erosive esophagitis and symptomatic relief of heartburn and acid-related gastrointestinal discomfort

Helps reduce gastric acid secretion and protect the esophageal and gastric mucosa

Mechanism of Action:

Esomeprazole is a proton pump inhibitor (PPI) that selectively inhibits the H^+/K^+ -ATPase enzyme system at the secretory surface of gastric parietal cells

This suppresses basal and stimulated gastric acid secretion irrespective of the stimulus

Reduces gastric acidity and promotes healing of erosions

Dosage & Administration:

Recommended pediatric dose: One sachet (10 mg) once daily, preferably 30 to 60 minutes before a meal or as directed by the physician

Contents can be mixed with water, breast milk, or soft food for easy administration

Do not crush or chew the granules

Use for the duration prescribed by the physician

Contraindications:

Hypersensitivity to Esomeprazole, other PPIs, or any component of the formulation

Warnings & Precautions:

Use with caution in patients with severe hepatic impairment

Prolonged use may increase risk of gastrointestinal infections, hypomagnesemia, or vitamin B12 deficiency

Monitor for signs of allergic reaction or rash

Not indicated for children under 1 year unless specifically prescribed

Side Effects:

Common: headache, abdominal pain, diarrhea, nausea, flatulence

Less common: dizziness, dry mouth, constipation

Rare: hypersensitivity reactions, rash, elevated liver enzymes

Storage:

Store in a cool dry place below 25°C

Protect from moisture and sunlight

Keep out of reach of children

Packaging:

Esoable Junior Sachet is available in individual sachets packed in strip packs

Schedule:

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
