

Information For the Use of
Micronized Purified Flavonoid Fraction (1000mg) Tablet

Favido 1000 Tablet

Brand Name: Favido 1000 Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

- Micronized Purified Flavonoid Fraction (MPFF) IP 1000 mg (Diosmin + Hesperidin)

Description:

Favido 1000 Tablet contains Micronized Purified Flavonoid Fraction (MPFF), a venoactive agent composed primarily of Diosmin and Hesperidin. It is indicated for the management of chronic venous disorders and hemorrhoidal disease. It helps in improving venous tone, reducing capillary permeability, and enhancing lymphatic drainage, thereby alleviating symptoms associated with venous insufficiency.

Indications:

Indicated for the treatment of:

- Chronic venous insufficiency (CVI)
- Varicose veins
- Hemorrhoids (acute and chronic)

It helps in reducing edema, pain, heaviness, and inflammation in affected veins.

Dosage & Administration:

Dosage should be as directed by the physician.

The tablet should be taken with meals to enhance tolerability.

In acute hemorrhoidal episodes, higher doses may be prescribed for a short duration followed by maintenance therapy.

Pharmacological Action:

- Micronized Purified Flavonoid Fraction (MPFF) improves venous tone by prolonging the vasoconstrictor effect of norepinephrine on the vein wall.
- It reduces capillary hyperpermeability and increases capillary resistance.
- It enhances lymphatic drainage and reduces leukocyte adhesion, thereby decreasing inflammation.

These combined actions help in improving venous circulation and relieving symptoms.

Side Effects:

Generally well tolerated.

Common side effects include mild gastrointestinal disturbances, headache, and dizziness.

Rarely, hypersensitivity reactions such as rash or itching may occur.

Precautions & Warnings:

- Use with caution in patients with known hypersensitivity to flavonoids
- Not a substitute for specific treatment of acute hemorrhoidal crisis if symptoms persist
- Lifestyle modifications such as exercise and avoiding prolonged standing may enhance therapeutic outcomes
- Use during pregnancy and lactation only if advised by the physician

Drug Interactions:

No significant drug interactions reported.

However, inform the physician about any concomitant medications.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
