

Catch **Hemoglobin level** before they fall too far...

# Feryskol<sup>TM</sup> XT Pro

**Feryskol<sup>TM</sup> XT Pro**

Ferrous Bisglycinate (60mg) + Zinc bisglycinate (15mg) + Folic Acid (1mg) + Methylcobalamin (500mcg) **Tablets**

**Feryskol<sup>TM</sup> XT Pro**  
Syrup

Ferrous Bisglycinate (100mg) + Zinc (17mg) + Folic Acid (200mcg) + (Methylcobalamin) Vitamin B12 1mg **Syrup**

- **Ferrous bisglycinate** provides a margin of safety that is 125 fold above the provisional maximum tolerable daily intake for iron of 0.8 mg/ kg body weight
- **Ferrous bisglycinate** does not effect on the absorption of zinc, calcium and other nutrients.
- **Glycinate form of zinc** absorbed at rate about 3 times that of zinc picolinate and 43 % higher rate than the gluconate form
- **Folic acid** supplementation during pregnancy may protect against depression 21 months after pregnancy.
- **Methylcobalamin** works with folic acid to control high homocysteine levels to lower risk factor for preeclampsia, neural tube defects (NTD) and neuron dysfunction.

## Indications

- ⊞ Anemia
- ⊞ Blood loss
- ⊞ Adolescence Age
- ⊞ Menstruation
- ⊞ Athletes
- ⊞ As iron supplement during perinatal period

**Low Bioavailability,  
Slow Refueling of Iron Store**
