

*In Allergic Rhinitis*

# Flutialfa™ Nasal Spray

**Flutialfa™**  
Nasal Spray

Fluticasone Propionate (0.005% w/v)

**Flutialfa™ F**  
Nasal Spray

Fluticasone Furoate (27.5mcg)

**Flutialfa™ AZ**  
Nasal Spray

Fluticasone Furoate (27.5mcg) + Azelastine (140mcg)

## Fluticasone Furoate

- ▲ works by binding to glucocorticoid receptors, reducing inflammation and suppressing the release of inflammatory mediators like histamines and cytokines.

## Azelastine

- ▲ Inhibits histamine release and blocks histamine H1-receptors, reducing allergic inflammation and related symptoms. It also exhibits mast cell-stabilizing properties.
