

Flutialfa VF

Brand Name: Flutialfa VF Rotacap

Dosage Form: Rotacap (for inhalation use only)

Composition:

Each Rotacap contains:

Vilanterol 25 mcg

Fluticasone Furoate 100 mcg

Therapeutic Segment:

Respiratory Care / Anti-Asthmatic / COPD Management Segment

Therapeutic Indication:

Indicated for the maintenance treatment of asthma and chronic obstructive pulmonary disease (COPD).

It helps in reducing airway inflammation, relaxing bronchial muscles, and improving breathing capacity for long-term respiratory control.

Mechanism of Action:

- **Fluticasone Furoate** is an inhaled corticosteroid (ICS) that decreases inflammation and swelling in the airways, preventing wheezing and shortness of breath.
- **Vilanterol** is a long-acting β_2 -adrenergic agonist (LABA) that relaxes bronchial smooth muscles, leading to prolonged bronchodilation and easier airflow.

Dosage & Administration:

- For inhalation use only, through a compatible dry powder inhaler device.
- Usual recommended dose: 1 Rotacap once daily, at the same time each day or as directed by the physician.
- Do not swallow the Rotacap.
- Rinse mouth with water after inhalation to prevent fungal infection.

Contraindications:

- Hypersensitivity to Vilanterol, Fluticasone, or any component of the formulation.
- Not intended for relief of acute bronchospasm or sudden breathing problems.

Warnings & Precautions:

- Use with caution in patients with cardiovascular disease, diabetes mellitus, or hyperthyroidism.
- Regular monitoring of respiratory function is advised.
- Do not discontinue abruptly without medical supervision.

Side Effects:

- Common: Headache, throat irritation, cough, and hoarseness.
- Rare: Oral thrush, palpitations, tremor, or hypersensitivity reactions.

Storage:

Store below 25°C in a dry place.

Keep the Rotacaps protected from moisture.

Use immediately after removing from the blister.

Packaging:

Flutialfa VF Rotacap is available in a strip of 10 Rotacaps.

Schedule:

Schedule H1 Drug – To be sold by retail on the prescription of a Registered Medical Practitioner only.
