

Information For the User  
Hydroxyzine (6mg) Drop

# Havezine Drop

**Brand Name:** Havezine Drop

**Dosage Form:** Oral Drops

**Composition:**

Each 1 ml contains:

- Hydroxyzine Hydrochloride IP 6 mg

**Description:**

Havezine Drop contains Hydroxyzine, a first-generation antihistamine with sedative and anxiolytic properties. It helps in relieving allergic symptoms and provides symptomatic relief in conditions associated with histamine release.

**Indications:**

Indicated for the treatment of:

- Allergic conditions such as urticaria and pruritus
- Allergic rhinitis
- Symptomatic relief of anxiety and tension (as prescribed)
- Pre-medication where sedation is required

It helps in reducing itching, skin rashes, and other allergic manifestations.

**Dosage & Administration:**

Dosage should be as directed by the physician.

Use a calibrated dropper for accurate dosing.

Shake well before use.

**Pharmacological Action:**

Hydroxyzine is a first-generation H<sub>1</sub>-receptor antagonist that suppresses histamine-mediated allergic responses. It also exhibits sedative and anxiolytic effects due to its action on the central nervous system.

**Side Effects:**

Generally well tolerated.

Occasionally, drowsiness, dizziness, dry mouth, or headache may occur.

**Precautions & Warnings:**

- May cause drowsiness; caution is advised when alertness is required
- Use with caution in patients with glaucoma or urinary retention
- Use under medical supervision in pediatric patients
- Do not exceed the recommended dosage

**Drug Interactions:**

Concomitant use with alcohol, sedatives, or other central nervous system depressants may enhance sedative effects. Use under medical supervision.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**

**(An ISO 9001: 2015 Certified Co.)**
