Jetmino
Infusion Nutritive infusion (Pure Crystalline Amino Acid)

- Aminomit Infusion are organic compounds that are chained together to form proteins.
- Aminomit Infusion is used to treat nutritional deficiencies. It promotes nitrogen-balancing in the body, also replenishes the protein reserve of the body in extensive burns or protein-calorie malnutrition.
- Aminomit Infusion helps in maintaining muscle tone and strength. They have a major role in the generation of energy in our body, regulation of mood, healing and repair of damaged tissues and keeping our skin, nails and hair healthy.
- The amino acids are an essential element in the diet. The catabolism of Amino acid initiates in muscle and yields NADH and FADH₂ which can be utilized for ATP generation
