

Information For the User
Ketorolac (0.4% w/v) + Olopatadine (0.1% w/v)

Oloplit KT Eye/Ear Drops

Brand Name: Oloplit KT Drop

Dosage Form: Sterile Ophthalmic Solution

Therapeutic Category: NSAID and Antihistamine Eye Drop

Composition:

Each ml contains:

- **Ketorolac Tromethamine I.P.** – 0.4% w/v
- **Olopatadine Hydrochloride I.P.** – 0.1% w/v
- **Benzalkonium Chloride Solution I.P.** (as preservative) – 0.01% w/v
- **Sterile Aqueous Base** – q.s.

Description:

Oloplit KT Drop is a dual-action ophthalmic preparation combining **Ketorolac**, a non-steroidal anti-inflammatory drug (NSAID), and **Olopatadine**, an antihistamine. This formulation is used for the treatment and prevention of inflammation and allergic symptoms in ocular conditions.

Indications:

- Allergic conjunctivitis
- Ocular itching and inflammation
- Seasonal allergic conjunctivitis
- Post-operative inflammation and discomfort

Pharmacological Action:

- **Ketorolac** inhibits prostaglandin synthesis by blocking cyclooxygenase enzymes (COX-1 and COX-2), thus reducing inflammation, pain, and photophobia.
- **Olopatadine** is a selective histamine H1-receptor antagonist that also inhibits the release of histamine from mast cells, effectively relieving allergic symptoms.

Dosage and Administration:

Instill 1 drop in the affected eye(s) twice daily or as directed by the physician.

Contraindications:

- Known hypersensitivity to Ketorolac, Olopatadine, or any component of the formulation
- Not for use in viral or fungal ocular infections

Precautions and Warnings:

- For ophthalmic use only
- Avoid touching the dropper tip to any surface to prevent contamination
- Use with caution in patients with bleeding disorders
- Discontinue use and consult physician if irritation or hypersensitivity occurs

Adverse Effects:

- Mild burning or stinging sensation
- Transient blurred vision
- Headache
- Eye redness

Storage:

Store in a cool, dry place below 25°C. Protect from light. Do not freeze.

Shelf Life:

24 months from the date of manufacture
