

Information For the User
Ketorolac (5% w/v) + Moxifloxacin (0.5% w/v) Eye Drops

Ketorine M Eye Drops

Ketorine M Eye Drop

Dosage Form: Eye Drops

Composition:

Each ml contains:

Ketorolac Tromethamine I.P. equivalent to Ketorolac 5% w/v

Moxifloxacin Hydrochloride I.P. equivalent to Moxifloxacin 0.5% w/v

Description:

Ketorine M Eye Drop is a combination ophthalmic formulation containing Ketorolac, a non-steroidal anti-inflammatory drug (NSAID), and Moxifloxacin, a broad-spectrum antibiotic. It is used in the management of bacterial eye infections associated with inflammation. The formulation helps reduce pain, redness, swelling, and prevents bacterial growth, thereby promoting faster healing and relief in ocular conditions.

Indications:

Bacterial conjunctivitis with inflammation

Post-operative eye inflammation with risk of infection

Eye pain, redness, and swelling

Ocular infections requiring anti-inflammatory and antibacterial therapy

Dosage & Administration:

Dosage should be used as directed by the physician.

Instill the prescribed number of drops into the affected eye(s).

Avoid touching the dropper tip to prevent contamination.

Pharmacological Action:

Ketorolac inhibits cyclooxygenase (COX) enzymes, reducing prostaglandin synthesis and thereby decreasing inflammation and pain in the eye.

Moxifloxacin inhibits bacterial DNA gyrase and topoisomerase IV, preventing bacterial replication and leading to bacterial cell death.

The combination provides both anti-inflammatory and antibacterial effects for effective ocular treatment.

Side Effects:

Eye irritation

Burning or stinging sensation

Dry eyes

Blurred vision (temporary)

Rare allergic reactions

Precautions & Warnings:

Use under medical supervision only.

Avoid wearing contact lenses during treatment unless advised.

Do not use in viral or fungal eye infections.
Use cautiously in patients with hypersensitivity to any component.

Drug Interactions:

No significant drug interactions reported with topical ophthalmic use.
Consult physician if using other eye medications.

Storage:

Store below 25°C in a dry place.
Protect from light.
Keep bottle tightly closed after use.
Keep out of reach of children.
