

Information For the User  
Levetiracetam (1000mg) Tablet

# Lapcetam 1000 Tablet

## Lapcetam 1000 Tablet

**Dosage Form:** Tablet

**Composition:**

Each film coated tablet contains:  
Levetiracetam I.P. 1000 mg

**Description:**

Lapcetam 1000 Tablet contains Levetiracetam, an antiepileptic drug used in the management of various seizure disorders. It acts on the central nervous system to reduce neuronal hyperexcitability, thereby preventing the onset and spread of seizures. The formulation provides effective control of partial, generalized, and myoclonic seizures, improving patient quality of life.

**Indications:**

Partial onset seizures (with or without secondary generalization)  
Generalized tonic-clonic seizures  
Myoclonic seizures  
Adjunctive therapy in epilepsy

**Dosage & Administration:**

Dosage should be taken as directed by the physician.  
Tablet should be swallowed whole with water, with or without food.  
Do not crush or chew the tablet.

**Pharmacological Action:**

Levetiracetam binds to synaptic vesicle protein 2A (SV2A) in the brain, modulating neurotransmitter release and reducing neuronal excitability. This stabilizes synaptic transmission and prevents seizure propagation without significant sedation or cognitive impairment.

**Side Effects:**

Drowsiness  
Dizziness  
Fatigue  
Headache  
Nausea

**Precautions & Warnings:**

Use under medical supervision only.  
Monitor for mood changes, depression, or suicidal thoughts.  
Use cautiously in patients with renal impairment; dose adjustment may be required.  
Do not abruptly discontinue therapy to avoid seizure recurrence.

**Drug Interactions:**

Minimal drug interactions; may interact with CNS depressants.

Consult physician before combining with other antiepileptic drugs or medications.

**Storage:**

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
