

Lubicom HL Eye Drop

Product Information: Sodium Hyaluronate (0.1% w/v) Eye Drops

Composition

- **Sodium Hyaluronate: 0.1% w/v**
 - **Formulation Type: Sterile isotonic ophthalmic solution.**
-

Pharmacological Class

- **Class: Ocular lubricant and viscoelastic agent.**
 - **Mechanism of Action: Sodium Hyaluronate binds water molecules to provide long-lasting lubrication, stabilize the tear film, and protect the corneal epithelium.**
-

Indications

1. **Dry Eye Syndrome: Relief from irritation, burning, and foreign body sensation caused by dry eyes.**
 2. **Ocular Surface Disorders: Protection and hydration for eyes in conditions like keratoconjunctivitis sicca and exposure keratitis.**
 3. **Post-Surgical Recovery: Lubrication and healing support after LASIK, cataract, or other ocular surgeries.**
 4. **Contact Lens Users: Reduces dryness and discomfort associated with prolonged contact lens use.**
-

Dosage and Administration

- **Dosage:**
 - **Adults and Children: 1-2 drops in the affected eye(s), 2 to 4 times daily, or as needed.**
 - **Administration Instructions:**
 1. **Wash hands thoroughly before use.**
 2. **Tilt your head back and gently pull down the lower eyelid to create a small pocket.**
 3. **Instill 1-2 drops into the pocket without touching the dropper tip to the eye or surrounding areas.**
 4. **Close the eye gently and blink a few times to spread the solution evenly.**
-

Contraindications

- **Hypersensitivity to Sodium Hyaluronate or any other ingredients in the formulation.**
-

Warnings and Precautions

1. **Sterility: Do not touch the tip of the dropper to any surface to avoid contamination.**
 2. **Contact Lens Wearers: Remove lenses before application and wait at least 15 minutes before reinserting them.**
 3. **Multiple Eye Drops: If using other eye medications, allow a 5-10 minute interval between applications.**
-

Adverse Effects

- **Common: Temporary blurred vision or mild eye irritation.**

- **Rare: Allergic reactions such as redness, itching, or swelling. Discontinue use and consult a physician if symptoms persist.**
-

Storage Instructions

- **Store below 30°C.**
 - **Protect from direct sunlight and freezing.**
 - **Keep the bottle tightly closed when not in use.**
 - **Discard the bottle 30 days after opening.**
-

Patient Instructions

1. **Use the eye drops only as directed by a healthcare professional.**
 2. **Avoid sharing the bottle to prevent infections.**
 3. **If symptoms persist or worsen, consult an eye specialist promptly.**
-

Clinical Benefits

- **Provides long-lasting hydration and lubrication to the eyes.**
 - **Protects the corneal surface and aids in epithelial healing.**
 - **Reduces the need for frequent reapplication due to prolonged retention on the ocular surface.**
-

Packaging

- **Available in 10 mL sterile, preservative-free dropper bottles.**
-

Sodium Hyaluronate (0.1% w/v) Eye Drops are an effective, safe, and reliable solution for managing dry eye symptoms and promoting ocular comfort. Ideal for everyday use and post-surgical care, these drops support optimal eye health.
