

Information For the User
Levocetirizine (2.5mg) + Montelukast (4mg) Syrup

Monplast LC Syrup

Monplast LC Syrup

Dosage Form: Syrup

Composition:

Each 5 ml contains:

Levocetirizine Dihydrochloride I.P. 2.5 mg

Montelukast Sodium I.P. equivalent to Montelukast 4 mg

Description:

Monplast LC Syrup is a combination formulation containing Levocetirizine, a selective antihistamine, and Montelukast, a leukotriene receptor antagonist. The combination is used in the management of allergic conditions by relieving histamine-mediated symptoms and reducing airway inflammation associated with allergic responses. It provides effective relief from respiratory allergies and improves overall breathing comfort in pediatric patients.

Indications:

Allergic rhinitis (seasonal and perennial)

Allergic cough

Sneezing and runny nose

Nasal congestion

Allergy associated bronchial asthma

Dosage & Administration:

Dosage should be taken as directed by the physician.

Shake well before use.

Use a calibrated measuring cup or spoon for accurate dosing.

Pharmacological Action:

Levocetirizine selectively blocks peripheral H1-histamine receptors, thereby reducing symptoms such as sneezing, itching, and nasal discharge.

Montelukast inhibits leukotriene receptors, decreasing airway inflammation, bronchoconstriction, and mucus production associated with allergic reactions and asthma.

Side Effects:

Drowsiness

Headache

Dry mouth

Abdominal discomfort

Fatigue

Precautions & Warnings:

Use under medical supervision in pediatric patients.

Use cautiously in patients with hepatic impairment.

Avoid exceeding the recommended dosage.

Not recommended without physician advice during pregnancy and lactation.

Drug Interactions:

Inform physician about concomitant use of sedatives or other antiallergic medications.

No significant interaction reported when used as prescribed.

Storage:

Store below 25°C in a cool and dry place.

Protect from light and moisture.

Keep out of reach of children.
