

Information For the User
Amoxycillin (80mg) + Clavulanic Acid (11.4mg)

Moxyplit CV Drop

Moxyplit CV Drop

Composition:

Each ml contains:

- **Amoxycillin 80mg** (Broad-spectrum Penicillin Antibiotic)
- **Clavulanic Acid 11.4mg** (Beta-lactamase Inhibitor)

Description:

Moxyplit CV Drop is a **combination antibiotic** designed to treat **bacterial infections in infants and children**. Amoxycillin works by **inhibiting bacterial cell wall synthesis**, while Clavulanic Acid **prevents bacterial resistance**, enhancing the effectiveness of Amoxycillin.

Indications:

- Respiratory Tract Infections (Tonsillitis, Pharyngitis, Pneumonia)
- Otitis Media (Ear Infections)
- Skin & Soft Tissue Infections
- Urinary Tract Infections (UTI)
- Dental Infections

Dosage & Administration:

- **As prescribed by a pediatrician** based on the child's weight and severity of infection.
- To be administered **with or after food** for better absorption and reduced stomach upset.
- **Shake well before use.**

Contraindications:

- Hypersensitivity to **Penicillins or Beta-lactams**.
- Severe kidney or liver impairment (use with caution).

Warnings & Precautions:

- Use **with caution in infants with kidney disease**.
- **Complete the full course** to prevent antibiotic resistance.
- **Monitor for allergic reactions**, such as rash or difficulty breathing.

Side Effects:

- Mild **diarrhea or nausea**
- **Rash or skin irritation**

- **Abdominal discomfort** (rare)
- **Allergic reactions** (severe cases)

Storage Instructions:

- **Store below 25°C in a dry place.**
- **Keep out of reach of children.**
- **Use within the prescribed period after opening.**
