

Information For the User  
Tocopheryl Acetate (Vitamin E) 200mg + L-Carnitine-L-Tartrate 150mg

# Multibolt LC

## Multibolt LC Tablet

**Dosage Form:** Tablet

**Therapeutic Category:** Nutraceutical / Antioxidant Supplement

### Composition:

Each film-coated tablet contains:

- Tocopheryl Acetate (Vitamin E) 200 mg
- L-Carnitine-L-Tartrate 150 mg

**Excipients:** q.s.

### Description:

Multibolt LC Tablet is a nutritional supplement combining powerful antioxidant and mitochondrial support agents. Tocopheryl Acetate (Vitamin E) is a fat-soluble vitamin with antioxidant properties that helps protect cells from oxidative stress. L-Carnitine-L-Tartrate supports cellular energy production by facilitating the transport of fatty acids into the mitochondria, playing a key role in metabolic processes.

### Indications:

- Management of oxidative stress and fatigue
- Supportive therapy in male infertility and reproductive health
- Enhances energy metabolism and muscle recovery
- Supplement in cardiovascular and neurodegenerative conditions

### Dosage and Administration:

- One tablet daily or as directed by the physician
- Preferably taken with meals

### Contraindications:

- Hypersensitivity to any of the ingredients
- Not recommended in patients with severe renal impairment without medical advice

### Warnings and Precautions:

- Use with caution in individuals with a history of seizures
- Long-term use should be monitored in patients with chronic conditions
- Keep out of reach of children

### Adverse Effects:

- Mild gastrointestinal disturbances such as nausea or abdominal discomfort (rare)
- Headache or dizziness (uncommon)

**Storage:**

- Store below 25°C in a dry place
- Protect from direct sunlight and moisture

**Presentation:**

- Strip of 10 tablets packed in a printed carton with product insert

**Conclusion:**

Multibolt LC Tablet provides antioxidant protection and metabolic support, contributing to improved vitality, cellular health, and reproductive function.
