Nimoplit LP

Nimoplit LP Tablet Dosage Form: Tablet

Therapeutic Category: Analgesic, Antihistamine, Decongestant

Composition:

Each uncoated tablet contains:

• Nimesulide B.P. 100 mg

• Phenylephrine Hydrochloride I.P. 5 mg

• Levocetirizine Dihydrochloride I.P. 5 mg

Excipients: q.s.

Description:

Nimoplit LP Tablet is a combination formulation offering anti-inflammatory, antihistaminic, and nasal decongestant properties. Nimesulide acts as a selective COX-2 inhibitor, providing relief from inflammation and pain. Phenylephrine is a sympathomimetic agent that reduces nasal congestion by vasoconstriction. Levocetirizine is a third-generation antihistamine, reducing allergic symptoms without causing significant drowsiness.

Indications:

- Common cold and flu symptoms
- Allergic rhinitis
- Nasal congestion associated with upper respiratory tract infections
- Fever, headache, body aches

Dosage and Administration:

- As directed by the physician
- Typically one tablet twice daily after meals or as prescribed

Contraindications:

- Hypersensitivity to any of the components
- Hepatic impairment (for Nimesulide)
- Severe hypertension or coronary artery disease (for Phenylephrine)

Warnings and Precautions:

- Use with caution in patients with cardiovascular diseases, liver dysfunction, or renal impairment
- Avoid concurrent use with other NSAIDs or antihistamines
- Not recommended for children below 12 years

Adverse Effects:

- Gastric irritation, nausea
- Dizziness or headache
- Dry mouth, mild drowsiness
- Palpitations (rare)

Storage:

- Store in a cool, dry place below 25°C
- Protect from moisture and direct sunlight

Presentation:

• Strip of 10 tablets in a carton with leaflet

Conclusion:

Nimoplit LP Tablet provides symptomatic relief in upper respiratory tract infections, flu, and cold with triple-action benefits—analgesic, antihistaminic, and decongestant.
