

Information For the User

Benfotiamine (7.5mg) + Folic Acid (0.75mg) + Methylcobalamin (750mcg) + Pregabalin (75mg)
+ Vitamin B6 (Pyridoxine) (1.5mg)

Nuroslide Gold Capsule

Nuroslide Gold Capsule

Composition:

Each capsule contains:

- **Benfotiamine** – 7.5 mg
- **Folic Acid** – 0.75 mg
- **Methylcobalamin** – 750 mcg
- **Pregabalin** – 75 mg
- **Vitamin B6 (Pyridoxine)** – 1.5 mg
- **Excipients** – q.s.

Description:

Nuroslide Gold Capsule is a specially formulated supplement designed to support **nerve health** and promote **neurological well-being**. Combining essential nutrients such as **Benfotiamine**, **Methylcobalamin**, and **Folic Acid**, along with **Pregabalin** and **Vitamin B6**, this product is ideal for individuals suffering from conditions like **neuropathy**, **nerve damage**, or those at risk of developing **nerve-related complications**. The capsule provides comprehensive **neuroprotective** support, helping to improve nerve function and reduce the discomfort associated with nerve pain, numbness, and tingling sensations.

Pharmacological Action:

- **Benfotiamine**, a **fat-soluble form of thiamine (Vitamin B1)**, helps protect the nerves and supports proper nerve function, aiding in the prevention of **diabetic neuropathy** and other forms of nerve damage.
- **Methylcobalamin** is an active form of **Vitamin B12** that promotes the regeneration of nerve cells and alleviates nerve pain.
- **Folic Acid** plays a vital role in **DNA synthesis**, supporting overall cellular function, including nerve cells.
- **Pregabalin** is a **neurostabilizer** that reduces nerve pain and improves the overall function of the nervous system by modulating calcium channels.
- **Vitamin B6 (Pyridoxine)** is essential for **nerve health**, helping to reduce symptoms of neuropathy and supporting the synthesis of neurotransmitters involved in nerve signaling.

Indications:

Nuroslide Gold Capsule is used for:

- **Diabetic neuropathy** – to alleviate symptoms of nerve damage caused by diabetes.
- **Peripheral neuropathy** – including pain, numbness, and tingling sensations.
- **Nerve damage and inflammation** – for conditions related to nerve discomfort.

- **General nerve health support** – helping to maintain healthy nerve function.
- **Management of neurological conditions** associated with **Vitamin B deficiencies**.

Dosage & Administration:

- **Recommended Dose:** One capsule **once daily** or as directed by a physician.
- **Administration:** Swallow the capsule **whole** with water; do not crush or chew.
- **Duration of Use:** Use as per physician's advice depending on the severity of the condition.

Contraindications:

- **Hypersensitivity** to any of the components (Benfotiamine, Methylcobalamin, Pregabalin, Vitamin B6, or excipients).
- **Severe renal impairment** – Pregabalin should be used with caution in patients with renal issues.
- **Pregnancy and breastfeeding** – consult a doctor before use.

Warnings & Precautions:

- Use with caution in patients with **renal impairment** or **kidney disease**.
- Pregabalin may cause **dizziness** or **drowsiness**; avoid driving or operating machinery if affected.
- Not suitable for children below **18 years** unless directed by a physician.
- **Monitor for signs of swelling, weight gain, or respiratory issues** when using Pregabalin.
- Consult a healthcare professional before use if taking other medications for nerve pain, **anticonvulsants**, or **antidepressants**.

Adverse Effects:

Nuroslide Gold Capsule is generally well-tolerated. Possible side effects include:

- **Dizziness, drowsiness, or fatigue**
- **Nausea, dry mouth, or constipation**
- **Swelling of hands, feet, or lower legs**
- **Weight gain**
- **Headache**
- **Rash** or allergic reactions (rare)

Drug Interactions:

- **Pregabalin** may interact with **CNS depressants** (e.g., sedatives, alcohol) and **opioid pain relievers**, increasing the risk of side effects such as **drowsiness**.
- **Vitamin B6** may interact with medications such as **levodopa** (used for Parkinson's disease).
- **Benfotiamine** may enhance the effects of **insulin** in patients with diabetes.

Storage Conditions:

- Store at **room temperature** (below 25°C) in a **cool, dry place**.
- Protect from **moisture** and **direct sunlight**.

- **Keep out of reach of children.**

Conclusion:

Nuroslide Gold Capsule is a comprehensive formulation that supports nerve health and alleviates symptoms of nerve-related discomfort. With a combination of key ingredients like **Benfotiamine**, **Methylcobalamin**, **Folic Acid**, **Pregabalin**, and **Vitamin B6**, it offers targeted relief for **neuropathy**, **nerve pain**, and general **nerve health maintenance**. Regular use, under medical supervision, ensures safe and effective symptom relief and improved overall well-being.
