Gum Paint

Orastyle
Ulcer Gel

- **Lignocaine Hydrochloride** at a concentration of 2% w/w that acts as a local anesthetic and provides rapid numbing and cool soothing effect.
- **Choline Salicylate** in the gel helps in decreasing the inflammation and swelling around the mouth ulcer, thus speeding up the healing process.

Orastyle Gum Paint

- Shows better results compared to monotherapy.
- Acts directly on the pulpal sensory nerves and after an initial polarization of sensory nerve fiber membranes, excess potassium halts polarization.
- Brings teeth back to normal and improves the quality of life.
- Potassium Nitrate works by calming the nerves in the teeth.
- This medication is used to prevent cavities and to reduce pain from sensitive teeth.

Indications:

Ulcers on inner lips

Ulcers on palate

Ulcers on tongue

Pain due to dentures
