

Rosutyle Gold 10 Tablet

Rosutyle Gold 10 Tablet

(Aspirin 75 mg + Rosuvastatin 10 mg + Clopidogrel 75 mg Tablet)

Composition:

Each film-coated tablet contains:

- **Aspirin I.P.** – 75 mg
- **Rosuvastatin I.P.** – 10 mg
- **Clopidogrel I.P.** – 75 mg

Description:

Rosutyle Gold 10 Tablet is a **cardioprotective combination** designed to prevent **heart attacks, strokes, and cardiovascular complications** in high-risk patients. It combines **antiplatelet and lipid-lowering agents**, making it essential for **patients with coronary artery disease (CAD), post-stent placement, and dyslipidemia**.

Pharmacological Action:

- **Aspirin (Antiplatelet Agent):** Prevents platelet aggregation and blood clot formation.
- **Rosuvastatin (Statin):** Lowers **LDL (bad cholesterol)**, increases **HDL (good cholesterol)**, and reduces plaque buildup.
- **Clopidogrel (Antiplatelet Agent):** Further reduces the risk of thrombotic events like heart attacks and strokes.

Indications:

Rosutyle Gold 10 Tablet is prescribed for:

- **Cardiovascular disease prevention** (Heart attack, stroke, unstable angina)
- **Post-percutaneous coronary intervention (PCI) / Stent placement**
- **Coronary Artery Disease (CAD) & Atherosclerosis**
- **Dyslipidemia in high-risk patients**
- **Peripheral Artery Disease (PAD)**

Dosage & Administration:

- **Recommended Dose: One tablet daily** or as directed by a physician.
- Take with **water after meals** to reduce gastric irritation.
- **Do not chew or crush** the tablet.

Contraindications:

- **Active bleeding disorders** (e.g., peptic ulcer, hemorrhagic stroke)
- **Severe liver or kidney impairment**
- **Hypersensitivity to aspirin, rosuvastatin, or clopidogrel**
- **Pregnancy & breastfeeding** (use only if prescribed by a doctor)

Warnings & Precautions:

- **Increased Bleeding Risk:** Caution in **patients undergoing surgery**.
- **Liver Function Monitoring: LFTs (Liver Function Tests)** recommended regularly.
- **Muscle Toxicity Risk:** Watch for **muscle pain or weakness** (myopathy risk).
- **Gastric Irritation:** Take with food to reduce acidity risk.

Adverse Effects:

- **Common:** Headache, nausea, acidity, muscle pain, dizziness
- **Serious:** Gastrointestinal bleeding, liver dysfunction, allergic reactions

Drug Interactions:

- **Anticoagulants (Warfarin, Heparin):** Increased bleeding risk
- **NSAIDs (Ibuprofen, Naproxen):** May interfere with aspirin's effect
- **Statins or fibrates:** Higher risk of muscle toxicity
- **Proton Pump Inhibitors (PPIs):** May reduce clopidogrel effectiveness

Storage:

- Store below **30°C**, away from **direct sunlight and moisture**.
- Keep out of reach of **children**.

Conclusion:

Rosutyle Gold 10 Tablet is a **clinically proven therapy** for patients at risk of **cardiovascular diseases**. By combining **antiplatelet and lipid-lowering properties**, it helps prevent **heart attacks, strokes, and arterial blockages**, making it a crucial medication for **long-term heart health**.
