

Information For the User
Rosuvastatin 20 mg + Ezetimibe 10 mg tablet

Rosumore EZ 20 Tablet

Brand Name: Rosumore EZ 20 Tablet

Dosage Form: Tablet

Composition:

Each film-coated tablet contains:

- Rosuvastatin Calcium IP equivalent to Rosuvastatin 20 mg
- Ezetimibe IP 10 mg

Description:

Rosumore EZ 20 Tablet is a combination of Rosuvastatin, a HMG-CoA reductase inhibitor, and Ezetimibe, a cholesterol absorption inhibitor. It is used in the management of dyslipidemia where monotherapy is insufficient. It helps in effectively reducing total cholesterol, LDL-cholesterol, and triglyceride levels, thereby lowering the risk of cardiovascular complications.

Indications:

Indicated for the treatment of:

- Primary hypercholesterolemia
- Mixed dyslipidemia
- Hyperlipidemia in patients inadequately controlled with statin therapy alone

It helps in improving lipid parameters and reducing atherosclerotic cardiovascular risk.

Dosage & Administration:

Dosage should be as directed by the physician.

The tablet should be swallowed whole with water and may be taken with or without food.

Regular monitoring of lipid levels is recommended during therapy.

Pharmacological Action:

Rosuvastatin reduces hepatic cholesterol synthesis by inhibiting HMG-CoA reductase, leading to increased LDL receptor expression and enhanced clearance of LDL-cholesterol. Ezetimibe selectively inhibits intestinal cholesterol absorption, providing an additive lipid-lowering effect.

Side Effects:

Generally well tolerated.

Possible adverse effects include headache, myalgia, abdominal discomfort, nausea, and elevation of liver enzymes.

Precautions & Warnings:

- Use with caution in patients with hepatic impairment
- Periodic liver function monitoring is advised
- Discontinue therapy if unexplained muscle pain or weakness occurs
- Contraindicated during pregnancy and lactation

Drug Interactions:

Caution is advised when co-administered with other lipid-lowering agents due to increased risk of myopathy.

Concomitant use with cyclosporine may increase rosuvastatin plasma levels.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.
