

Information For the User
Salbutamol 2.5 mg Respule

Salbot 2.5 Respule

Brand Name: Salbot 2.5 Respule

Dosage Form: Respule (Nebulization Solution)

Composition:

Each 2.5 ml Respule contains:

Salbutamol Sulphate equivalent to Salbutamol 2.5 mg

Therapeutic Segment:

Respiratory Care / Bronchodilator Segment

Therapeutic Indication:

Indicated for the management and prevention of bronchospasm associated with asthma, chronic obstructive pulmonary disease (COPD), bronchitis, and other obstructive airway disorders. It helps in relaxing airway muscles, relieving shortness of breath, wheezing, and improving airflow to the lungs.

Mechanism of Action:

- **Salbutamol** is a short-acting β_2 -adrenergic receptor agonist (SABA).
- It stimulates β_2 receptors in bronchial smooth muscles, leading to muscle relaxation and bronchodilation, which eases breathing and relieves airway obstruction.

Dosage & Administration:

- For inhalation use only, through a nebulizer.
- Usual adult dose: One Respule (2.5 mg/2.5 ml) via nebulization every 4–6 hours or as directed by the physician.
- Do not inject or swallow the solution.
- Use immediately after opening the Respule.

Contraindications:

- Hypersensitivity to Salbutamol or any component of the formulation.
- Severe cardiovascular disorders or arrhythmias.

Warnings & Precautions:

- Use with caution in patients with hypertension, diabetes, hyperthyroidism, or heart disease.
- Do not exceed recommended dose; overuse may cause paradoxical bronchospasm.
- Rinse mouth after nebulization to avoid throat irritation.

Side Effects:

- Common: Tremor, headache, palpitations, throat irritation, and nervousness.
- Rare: Muscle cramps, tachycardia, or hypersensitivity reactions.

Storage:

Store below 30°C in a dry place.

Protect from light and do not freeze.

Use immediately after opening the Respule.

Packaging:

Salbot 2.5 Respule is available in single-use LDPE containers of 2.5 ml, packed in strips of 5 Respules.

Schedule:

Schedule H Drug – To be sold by retail on the prescription of a Registered Medical Practitioner only.
