

**A Reliable Spasmolytic
Drop for Paediatric Patients....**

TinyBud™

Scotspas

Scotspas Dicyclomine (10mg) + Dimethicone (40mg)
Drops

Dicyclomine

- Has direct smooth muscle relaxant action in addition to anti-cholinergic actions.
- Reduced tone and amplitude of contractions of stomach and intestine & relieves spasm.

Dimethicone

- Allows gas bubbles in the stomach and intestine to come together more easily for easier passage of gas.
- Relieves painful pressure caused by excess gas in the stomach & intestines.

Flatulence

Cramps

Intestinal Spasm

Irritable Bowel Syndrome
