

Setgas 5 Tablet

Setgas 5 Tablet – Bisacodyl 5mg for Effective Constipation Relief

Composition:

Each **Setgas 5 Tablet** contains:

- **Bisacodyl 5 mg** – A stimulant laxative that promotes bowel movements by stimulating the intestinal muscles and increasing water secretion in the colon.

Description:

Setgas 5 Tablet is a **gastro-resistant laxative** used for the **short-term relief of constipation** and bowel cleansing before medical procedures. It works by stimulating the **natural movement of the intestines**, leading to smooth and predictable bowel movements.

Pharmacological Action:

- **Bisacodyl directly stimulates** the nerve endings in the intestinal wall, causing rhythmic contractions (peristalsis).
- Increases **water and electrolyte secretion** in the colon, softening stool and easing passage.
- **Gastro-resistant coating** ensures the drug reaches the intestine without breaking down in the stomach.

Indications:

Setgas 5 Tablet is recommended for:

- **Occasional constipation relief.**
- **Bowel cleansing before medical examinations** like colonoscopy or surgery.
- **Post-surgery or bedridden patients** who require gentle bowel stimulation.

Dosage & Administration:

- **Adults & Children (Above 10 Years): One to two tablets at bedtime** or as prescribed by a physician.
- **Children (6-10 Years): One tablet at bedtime** under medical supervision.
- **Take with water; do not crush or chew** the tablet.

Contraindications:

- **Intestinal obstruction or severe abdominal pain of unknown cause.**
- **Severe dehydration or electrolyte imbalance.**
- **Inflammatory bowel disease (Crohn's disease, ulcerative colitis).**

Warnings & Precautions:

- **Not for long-term use** as it may lead to **dependence** and loss of natural bowel function.
- **Use caution in pregnant and breastfeeding women**; consult a doctor before use.
- **Drink plenty of fluids** to avoid dehydration.
- May cause **mild cramping or bloating**, which usually resolves with regular use.

Adverse Effects:

- **Abdominal discomfort or cramps.**
- **Nausea or diarrhea** if taken in excessive amounts.
- **Electrolyte imbalance** with prolonged use.

Drug Interactions:

- **Avoid taking with antacids or milk**, as they may reduce the effectiveness of the gastro-resistant coating.
- **May reduce absorption of other medications**; take at least **2 hours apart** from other drugs.

Storage Conditions:

- Store at **room temperature (below 30°C)**, away from moisture.
- Keep out of reach of **children**.

Conclusion:

Setgas 5 Tablet provides **gentle yet effective relief from constipation**, making it a **trusted solution for digestive care**. Its **gastro-resistant formula ensures optimal action**, making it suitable for **occasional use** or **pre-procedure bowel cleansing**.
